

Performance*
+ 6 %

High efficient six speed automatic transmission.

Most efficient engines in segment.

Optimized operation of auxilliary units.

Hood made of aluminium.

Doors made of aluminium.

Low friction tyres.

Brake Energy Regeneration.

Active
aerodynamics.

Fenders made
of aluminium.

Performance + 6.1 %

Inline 6 diesel engine EU 5

Consumption
- 8.9 %

- Most efficient engine in segment.
- Completely made of aluminium.
- 1800 bar piezo-injection.
- Diesel particulate filter standard equipment for all markets.

Performance + 10.9 %

V8 petrol engine EU 5

Consumption
- 1.8 %

- BMW 740i & BMW 750i:
Most efficient engine in segment.
- BMW 740i & BMW 750i:
Twin Turbo with High Precision Injection.
- BMW 740i & BMW 750i:
Benchmark in the combination of power output, fuel consumption & response.
- BMW 750i:
Unique engine design with two turbochargers inside the V8 cylinder angle.
